Compactor

In today's commercial world optimum utilization of the space is a stiff challenge. Compactor Storage is just the perfect solution that provides maximum space utilization to the end-user.

At SPACTECH, Compactors are specially engineered to meet the exact requirement of the end-user in most economic way. Our Knock-down type system is installed/re-installed in an easier way and it's based on sophisticated wheel & rail construction that increases its life-span. Each unit is given an individual locking system and when fully compacted, entire system can ultimately locked with single locking operation.

SPACTECH Compactor storage system is manufactured from superior quality CRC metal, treated in 7 tank anti-rust treatment and is finished in state of art powder coating facility. It's just an ideal solution for corporate, banks, financial institutes, libraries an many more establishments.

Flush Doors

Spactech flush doors are manufactured from a composite construction of Solid Timber components which consist of a block board core of wood strips laid edge to edge and bonded with cross bands with the latest technology. The basic advantage is the timber structure of Spactech flush doors which are chemically treated and processed from kiln seasoned wood and are guaranteed against warping, bulging, shrinkage, brittleness and cracks. The refined elegance of SPACTECH flush doors is a legacy of the joinery tradition and makes it ideal for both classic and modern interiors. Only the best available materials and timbers are used. Each phase of manufacture is carefully controlled right up to the final handcrafted finish.
